

A SENSATIONAL SURROGACY GUIDE

Choosing the right surrogacy *agency.*

Seven questions worth asking before you begin — for Intended Parents and Gestational Carriers deciding who they want beside them during their journey.

BEFORE YOU BEGIN

Don't be afraid to ask questions.

Choosing a surrogacy agency isn't simply about finding someone who can make a match. You're choosing the people who may walk beside you through one of the most meaningful experiences of your life.

Before choosing an agency — any agency, including ours — have a conversation. And don't be afraid to ask questions like these.

QUESTION 01

Who will actually be with me during my journey?

Ask who you'll communicate with after signing. Will you know your team? Will they know you? The relationship you have with your agency matters, especially when questions or unexpected situations arise.

QUESTION 02

How are matches made?

A successful match should involve more than meeting basic qualifications. Ask how the agency considers personality, expectations, communication preferences, and compatibility between Intended Parents and Gestational Carriers.

| A fast match isn't necessarily the *right* match.

QUESTION 03

How are Gestational Carriers screened?

Understanding the screening process is important for everyone involved. Ask about pregnancy history, medical records, psychological screening, background screening, and fertility clinic clearance.

QUESTION 04

What support will I receive after matching?

Matching is only the beginning. Ask what support you'll receive as you move through medical clearance, legal agreements, embryo transfer, pregnancy, and delivery. A good agency relationship should continue throughout the journey.

QUESTION 05

How will we communicate?

Ask who you'll contact when you have questions and how communication is normally handled. Surrogacy has a lot of moving pieces. You should feel comfortable knowing who you can turn to when you need guidance.

QUESTION 06

What does the agency coordinate?

Ask what the agency handles and what you'll be responsible for managing yourself. A surrogacy journey can involve fertility clinics, attorneys, escrow, insurance, medical appointments, travel, compensation, and delivery planning.

QUESTION 07

Do I feel comfortable with these people?

This one doesn't fit neatly on a checklist, but it may be the most important. Do you feel heard? Are your questions answered honestly? Do they want to understand your story? Can you imagine calling this team when something unexpected happens?

Surrogacy is deeply personal. Choosing your agency should feel *personal* too.

WHY SENSATIONAL SURROGACY?

We'd rather have a *conversation.*

Sensational Surrogacy was founded by April Sosebee after experiencing surrogacy herself as an Intended Parent. She created the agency around a simple belief: give people the kind of personal care and support a journey this important deserves. That philosophy continues to guide the entire Sensational Surrogacy team today.

But we don't expect a website or a guide to tell you whether we're the right agency for you. Tell us your story. Ask the difficult questions. Meet the people who may be part of your journey. Then decide whether we're the right team to walk it with you.
